We invite YOU to publish in **Journal of Plant Protection Research**, where are published original papers and reviews covering all scientific aspects of modern plant protection.

Subjects include i.a.:

- phytopathological virology,
- bacteriology,
- plant pathology,
- mycology,
- entomology,
- biological control,
- weed science and protection technique,
- pesticide residue research.

We published papers describing an interdisciplinary approach showing how different control strategies can be integrated into pest management programmes, covering high and low input agricultural system worldwide, within the framework of ecologically sound and economically responsible land cultivation.

Relevant topics included advanced methods of diagnostic, computer-assisted diagnostic, research and new findings in the field of plant, biological methods of plant protection, selective chemical methods of plant protection, and effects of plant-protecting agents and their toxicology, methods to induce and utilize crop resistance, techniques of application and economic aspects of plant protection.

The journal is published in both **print and on-line** versions.

JPPR is now indexed with and included in i.a.: **AGRICOLA, AGRIS, AGRO, Bibliographie der Pflanzenschutzliteratur, CABI, Chemical Abstracts Service, DOAJ, EBSCO, Google Scholar, Index Copernicus International, Polish Scientific Journal Contents, ProQuest, SCOPUS, Thomson Reuters – Biosis Previews and Zoological Record.**

Moreover the journal is under the indexing process with ISI.

Send your manuscript via Editor Manager system, which you will find on: <http://www.editorialmanager.com/jppr/default.asp>
